Test 3: Fraudulent Scam Email (Taken from Data set but changed by ChatGPT)

ORIGINAL:

I AM (DR.) JAMES NGOLA, THE PERSONAL ASSISTANCE TO THE LATE CONGOLESE (PRESIDENT LAURENT KABILA) WHO WAS ASSASSINATED BY HIS BODY GUARD ON 16TH JAN. 2001.

THE INCIDENT OCCURRED IN OUR PRESENCE WHILE WE WERE HOLDING MEETING WITH HIS EXCELLENCY OVER THE FINANCIAL RETURNS FROM THE DIAMOND SALES IN THE AREAS CONTROLLED BY (D.R.C.) DEMOCRATIC REPUBLIC OF CONGO FORCES AND THEIR FOREIGN ALLIES ANGOLA AND ZIMBABWE, HAVING RECEIVED THE PREVIOUS DAY (USD\$100M) ONE HUNDRED 2

.....

TRANSFORMED:

Dear Esteemed Associate,

I am Dr. Adebayo Adekunle, serving as the confidential aide to the late Congolese leader, President Laurent Kabil, whose life tragically ended on January 16, 2001, due to an unforeseen attack by one of his bodyguards.

This unfortunate event unfolded before our eyes during a crucial meeting concerning the financial outcomes of diamond transactions within territories under the governance of the Democratic Republic of Congo, alongside our allies from Angola and Zimbabwe. Just a day before this tragic incident, we had successfully secured a substantial amount of one hundred million United States dollars (USD\$100M), delivered in three diplomatic containers via Zimbabwe, earmarked for safekeeping.

My reason for reaching out is to earnestly request your support in acting as a guardian for these funds, as well as to seek a collaborative effort in transferring the sum of twenty-five million United States dollars (USD\$25M) into your bank account. This sum was securely deposited with a renowned security firm in Ghana, encased in a diplomatic container as precious metals valued at USD\$25M for safe preservation, pending future investment endeavors, possibly in your country.

Your introduction came through a highly reliable acquaintance, known for their extensive travels and membership within the Chamber of Commerce, who vouched for your integrity and dependability as a potential overseas partner, albeit the specific nature of this transaction was kept confidential for security reasons.

The USD\$25M represents a portion of the diamond trade proceeds meant for the late President Kabila, which was safely transported through Zimbabwe in diplomatic containers. Following the president's assassination and the subsequent chaos, including violent confrontations among various factions, I found myself compelled to flee for my life. Being a civil servant and not

AntiPhish - Testing and Validation

a combatant, I sought refuge by crossing the Congo River to Libreville and eventually relocating to Ghana, where I currently reside.

What I seek from you is assistance in relocating this fund to your account for investment purposes, in a manner that does not attract undue attention. In appreciation of your help, I propose offering you 20% of the total sum as your share upon the successful transfer of the funds, with 75% allocated for myself. With your advisory, I aim to invest in lucrative ventures within your country to establish a stable and meaningful life away from the tumult of conflict.

The remaining 5% of the sum will cover any expenses incurred during the fund transfer process. Should you find this proposal agreeable, I urge you to contact me at your earliest convenience through the provided telephone number and email address. This will enable us to arrange a face-to-face meeting in Ghana to finalize the clearance of the funds before proceeding with the bank transfer, as I believe in the principle of seeing is believing.

Please rest assured, this transaction is entirely risk-free, as the funds are not recorded in Kinshasa, being initially allocated for the personal use of Mr. President prior to the tragic event. Furthermore, I possess all necessary documentation pertaining to the funds, including the Certificate of Deposit, as I am the officially recorded depositor of the consignment.

I eagerly await your prompt response.

Yours sincerely,

Mr. Adebayo Adekunle.

Test 13: Some kind of product sales pitch (Sent by Jason Stapleton)

We spend our lives trying to get people to do what we want. To agree with our opinions. To follow our advice. To leave us alone. ☺ It's how we find common ground - how we align our ideas and values. But not all methods are created equal. There are 4 ways you can get people to do what you want. They are Persuasion, Coercion, Manipulation and Influence. Let's start with Persuasion. When you persuade you are using emotion and logic to convince someone that you are right. It might be in the way you think, what you believe or the actions you take. Regardless of what you want agreement with, persuasion is the process of convincing someone to agree with you. Next, we have Coercion. Coercion and persuasion are almost the same thing - with one major difference. Persuasion uses reason and logic to get *voluntary* agreement. Coercion uses threats and force.

Persuasion = Good.

Coercion = Bad.

Now let's talk about manipulation. Manipulation is an attempt to modify or control someone's thoughts, beliefs or actions by lying, withholding the truth or some other dishonest act.

Persuasion is *always* truthful. You may choose to dramatize the facts, but persuasion is never dishonest. Manipulation *IS* dishonest. You should never engage in coercion or manipulation.

Persuasion = Good

Coercion = Bad

Manipulation = Bad

Which brings us to Influence. My favorite way to get people to do what I want. Having influence means you have the ability to modify or control someone's thoughts, beliefs or actions *without* persuasion, manipulation or coercion. Influence is the power to affect change without convincing people you're right.

Persuasion = Good

Coercion = Bad

Manipulation = Bad

Influence = Awesome

But influence isn't like a light switch. It's not like you have it or you don't. We have varying degrees of influence over some people, some of the time. And there will be a few people you have total influence over. These people will follow you on blind faith. But gaining someone's faith and trust takes time. It won't work for the get-rich-quick crowd. Those folks will have to resort to persuasion, coercion or manipulation. But once you've built that trust with your prospects you won't have to spend any time "selling" them on your product. Don't believe me? I'll give you an example... My Influential Writers Intensive <<https://click.convertkit-mail2.com/d0u5k46om6h0h4go7kqtmhvxoq44/dpheh0h0r97rl2sm/aHR0cHM6Ly9zdGFwbGV0b24uc3IzdGVtZS5pb9pd2k=>> is starting on May 1st... I have already received at least a dozen emails from readers asking me some variation of this question, *“Hey Jason, I heard about the influential writers intensive and I’m really interested. Here’s my situation, *[explains situation]* Is the intensive something I should be part of?”* Keep in mind, all I have up right now is a waitlist signup. These folks have no details on what’s included or even the price of the intensive. But to them, those things don’t matter. All they want to know is if I think it’s something they should be part of. If I do, they’ll enroll. That’s what influence is. But be warned... While influence takes a long time to create, it can be destroyed in a single moment. You can NEVER break the trust someone has given you. Both Influence and Persuasion are ethical ways to get people to do what you want. Both will make you a lot of money. But if I was starting over again I’d focus on mastering the skill of influence first. Over time it’s a better skill

Test 15: Robinhood Trade Settlement Notice (Sent by Robinhood)

Trade settlement period shortens to 1 day on May 28. [image: Robinhood logo] What to expect with T+1 settlement date Hi Justin, starting May 28, 2024 the trade settlement period for stocks and ETFs will be just 1 day (T+1) instead of 2 days (T+2). The settlement period is the amount of time it takes for securities and cash related to trades to be exchanged between buyers and sellers. This is an industry wide change for most security transactions due to recent rule amendments from the Securities and Exchange Commission (SEC) and FINRA.
What does this mean for you? If you sell a security such as a stock, you will receive trade proceeds 1 business day after the trade is executed. For example, if you sell shares of a stock on Tuesday, the transaction will settle on Wednesday (unless it's a stock market holiday). *What do you need to do?* There's no action needed from you. The new T+1 settlement period will automatically be applied for any new trades executed on or after May 28, 2024. If you have any questions, please visit our Help Center

Test 17: Fake Job Offer (Found on Berkley University phishing database)

Hello,

Are you currently in the US? Here is an opportunity for you to work part time after classes and earn \$500 weekly.

The job is completely done online and can be completed anytime in the evening/night at home and won't take much of your time daily, you don't have to be online all day and don't need any professional skill to do the job, all you need is just come online before going to bed to forward all order of the day made by agents to the supplier and you are done for the day.

We have 12 Agents in the United States that are working for the company, they need materials like labels, staplers, envelopes, files and stamps to do their daily job. They will email you whenever they need materials and also state the type of materials they need and the quantity, it is now your duty to contact the supplier through email to place orders for the materials and also state the quantity that should be mailed to the agent address through the post, the supplier will then visit the post to mail the materials to the agent.

We are a New Zealand based company that offers company registration services to clients all over the globe.

Each agent will only order for materials once in a week, we are employing you just to reduce the workload for us, our supplier and for the agents.

If you still care to proceed with the job, get back to us with the information listed below then we can proceed from there.

1, NAME:

2, ADDRESS, STREET NAME AND HOUSE NUMBER, NOT P.O BOX:

3, CITY:

4, STATE:

5, ZIP CODE:

6, MOBILE:

I await to hear from you ASAP if you want to proceed with the job.

Test 20: “419” Fraud Email (Generated by ChatGPT)

Dear Esteemed Beneficiary, I am Barrister John Eze, a legal representative and personal attorney to Mr. Rava, a national of your country, who used to work with Chevron Oil Company in Nigeria. Herein after shall be referred to as my client. Unfortunately, my client and his family were involved in a fatal car accident, all occupants of the vehicle unfortunately lost their lives. I have contacted you to assist in repatriating the fund valued at USD 25.5 million left behind by my client before it gets confiscated or declared unserviceable by the bank where this huge amount was deposited. The bank has issued me a notice to provide the next of kin or have the account confiscated within a short period. Since I have been unsuccessful in locating the relatives for over 3 years now, I seek your consent to present you as the next of kin to the deceased, so that the proceeds of this account can be paid to you. Therefore, on receipt of your positive response, we shall then discuss the sharing ratio and modalities for the transfer. I have all necessary legal documents that can be used to back up any claim we may make. All I require from you is your honest cooperation to enable us to see this transaction through. I guarantee that this will be executed under a legitimate arrangement that will protect you from any breach of the law.
